<b>DISCUSSIONS:</b>			
<p>In this phase planning, we planned how our PWD Management Information System for Barangay Nangka will work. We discussed the main purpose of the system, who will use it, and what we want to achieve. We also set the timeline, divided the tasks, and listed what we need to complete the project successfully.</p> <p>In this part the requirement Analysis, we gathered and analyzed all the requirements needed for the system. We identified the features such as user login, PWD registration, categorization based on disability type, and report generation. We made sure that the system fits the needs of Barangay Nangka and helps the staff easily manage and monitor PWD records.</p>
